

GET READY, BECAUSE YOU'RE ABOUT TO RECEIVE A

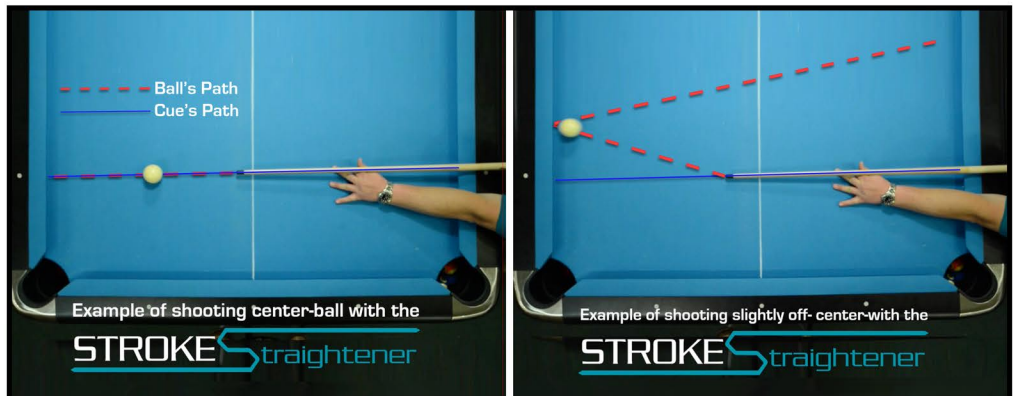

STROKE straightener

The Stroke Straightener is a revolutionary new tool designed to help pool players dramatically improve their stroke. This device is a two-piece, Sneaky Pete-style pool cue with a special, patented, conical phenolic tip... and **you're going to be one of the first to get one!**

It typically only takes about thirty seconds of using the device before players start to **see a major improvement in both their accuracy and their ability to hit center ball.**

Accuracy is the key to nearly everything in the game of pool and **the Stroke Straightener is your secret weapon** to dramatically improving your own accuracy!

Since someone has purchased the Stroke Straightener for you as a gift, **you will automatically be shipped one of the very first units when they are released** to the public in late January 2015. It's already been paid for; all you have to do is take it out of the packaging and start using it!

My name is Brandon Gramse and I'm the inventor of The Stroke Straightener. If you have questions, just contact me at **Brandon@StrokeStraightener.com**
